WASHINGTON'S SENSIBLE WORDS

The Negro Educator Tells What the South is Doing to Help His Race

Louisville, Ky., June 24.—With enthusiasm unabated in spite of the excessive heat of the last three days, officers and delegates attending the International Sunday School Convention at the Armory yesterday began to see the end of their arduous labors.

The principal speakers at the night session were W. N. Hartsborn of Boston, chairman of the International Executive Committee, who took for his topic "New Plans for Sunday School Work Among the Negroes," and Booker T. Washington, principal of Tuskegee Institute at Tuskegee, Ala. Washington said in part:

"I was born in the South. I was born a slave. In the Southern part of the United States there are more than 8,000,000 of my race. The blacks and whites are here to remain, in my opinion, for all time. Whatever affects the one race affects the other. We are fast learning in every part of America that one man cannot hold another man down in the ditch without remaining in the ditch with him.

"It may not be known outside of the South and to the general public, but nevertheless it is true, that every branch of the Southern white church is assisting in some manner in the educational, moral and religious development of the negro through their college, Sunday school or church work. The whole future of the relations of the two races in the South hinges largely upon our being able to inculcate into the young minds of black children and white children proper ideas of justice and a spirit of toleration and friendship between race and race.

Sunday School Place to Teach These

"If we fail to teach these lessons in the Sunday school, in that degree the future relations between the races become a matter of speculation and danger. The Good Father has so arranged matters on this earth that one man cannot get on without the help of the other man. Our relations are so delicately and minutely interwoven that one race cannot in any large degree get away from the other.

"In nine-tenths of our Southern communities there is peace, good will and evidences of friendship existing between the races. The outside world hears of the isolated cases of friction resulting in mob violence and lynching and too often concludes that this represents our Southern Christian civilization and that there are no adequate results following the work being done in church, Sunday school, public school and elsewhere.

Need of Sunday School Work

"Attention is often called to the fact that the young negro gives trouble. I grant that there is far too much crime committed by the negro youth, but in considering this phase of negro life we must remember that it is the young that give trouble. Statistics show that two years ago 1,400,000 children of my race entered no public school and a large proportion of those who were in school attended only four or five months during the year. There are hundreds of thousands of black children who enter no Sunday school or church on the Sabbath day. But notwithstanding the enormous amount of work to be done, that already accomplished in moral and religious growth indicates the possibilities of such work and justifies further efforts in that direction.

"This country owes a debt of gratitude already to a group of brave, unselfish, courageous white men and women in the South which it can never pay. It has been largely owing to the influence of this group, working in co-operation with the educated negro, that peace and harmony and good will prevail in the South to the extent they do. The future for both of our races is not dark."

DEATH WAS ON HIS HEELS

Jesse P. Morris, of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at all drugstores. Fifty cents and \$1.00. Trial bottle free.

SPECIAL DINNERS

The dinners at the Elk Cafe for 50 cents are the best in the city.

HEATHEN HAIR ON AMERICAN HEADS

Many a Yankee Woman is Wearing a Second Hand Chinese Pigtail

Boston, June 24.—A side light on what women wear in their hair when it comes to dressing it a la mode for the "Merry Widow" hat, came out when the steamer Seraca, from China, steamed into port. In the cargo was a lot of Chinese pigtails. It was consigned to a Boston hair dealer, who will use it in making "rats" and switches and puffs.

According to the steamer officials, the importation of human hair from China is a thriving industry. No good Chinese will part with his pigtail in life, but when he is dead it is different. He usually has a good supply, and his relatives will let it go cheap. Hair from dead people does not make up into extra fine switches, but it will do in the cheaper grade.

There is nothing better than the heavy, coarse, strong, straight hair of the Chinese, dead or alive, for stylish puffs and rats. It never loses its shape, it stands all sorts of knocking about, and as long as the girl does not know what she is wearing there is no trouble.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

F. J. Cheney & Co., Toledo, Ohio.

Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

Rawls, City Passenger and Ticket Agent.

IF YOU KNEW

The merits of the Texas Wonder, you would never suffer from kidney, bladder or rheumatic trouble. \$1 bottle two months' treatment. Sold by druggists or by mail. Send for testimonials. Dr. E. W. Hall, 2926 Olive street, St. Louis, Missouri.

NO HUMBUG

No humbug claims have to be made for Foley's Honey and Tar, the well known remedy for coughs, colds and lung troubles. The fact that more bottles of Foley's Honey and Tar are used than of any other cough remedy is the best testimonial of its great merit. Why then risk taking some unknown preparation when Foley's Honey and Tar costs you no more and is safe and sure. Sold by all druggists.

TEDEY HAD IT UNDER HIS THUMB

John Temple Graves Says the Chicago Convention was an Entirely Tame Affair

Atlanta, June 24.—John Temple Graves, editor of Hearst's New York American, and S. S. Carvalho, Hearst's main business representative, are in Atlanta. They do not deny that their purpose in coming here is to look into the newspaper situation, though they declined to have anything to say with reference to their employer's plans for the future.

Mr. Graves had no words of praise for the Republican convention.

"It was the dearest affair I ever attended," he said. "Excepting the ovation to Roosevelt there was not a spark of spontaneity in the entire proceedings, excepting when the delegates rose and cheered fifteen minutes for LaFollette. Practically all the applause was arranged beforehand, and the enthusiasm was gauged and directed by leaders, who brought forth cheers or stopped them by the wave of a hat. It was quite evident that Theodore Roosevelt had the entire convention under his thumb."

San Francisco, June 24.—Assembling of the Atlantic fleet of sixteen warships and six auxiliaries in this harbor for the start on July 7, on the voyage around the world from San Francisco to Hampton roads already has begun. Seven of the battleships, including the flagship of Rear Admiral Charles S. Sperry, the Connecticut, are here and all of the auxiliaries are in this vicinity. AN AUTOMOBILE ACCIDENT

As in a Shooting Scrape, the Innocent Bystanders Stood the Brunt

New York, June 24.—While endeavoring to pass another automobile, while it was racing at high speed yesterday, a big touring car, carrying five persons, ran into a third automobile, which had been drawn up alongside the road a mile east of Hempstead, L. I., to avoid the racers, and killed one man, J. K. Arosemina of New Rochelle, N. Y., and injured the occupants of both cars.

Mr. Arosemina and his family were out for an afternoon spin and observing two automobiles, each carrying a large number of persons, approaching in a hot race, he directed that his machine be run to the side of the road. As the two flying cars swept down the turnpike the driver of the rear car endeavored to take the lead. With a crash this car collided with the standing automobile, and the occupants of both cars were pitched into the roadway.

Mr. Arosemina died shortly after being taken to the Nassau Hospital, where two of the injured were taken. Their injuries are not believed to be fatal.

Among the occupants of the touring car were the Dugan brothers, jockeys, both of whom were injured. William J. Dugan was found at the hospital to have a badly lacerated face, a broken nose and a dislocated jaw. Edward Dugan's injuries were slighter, consisting of cuts and bruises. "Eddie" Dugan is considered one of the best riders in the Metropolitan circuit.
